Understand plan terminology

Understand plan terminology

Context

The main terms used in eCare Cleaning.

Starting point

Terminology

Prerequisites

- No prerequisites.

Reference

Term	Explanation
Zone	An area of the site: reception, kitchen, storeroom or changing room.
Surface	Equipment or a surface to treat within a zone.
Procedure	The parameters and tasks required to treat a surface.
Task	An action, PPE item or observation included in the operating instructions.
FT	Product technical data sheet.
FDS	Product safety data sheet.

Term	Explanation
Library plan	A reusable template, notably associated with an industry.
Closed plan	The finalised version, revised by working on a duplicate.

Expected result

The terms Zone, Surface, Procedure, Task, technical data sheet, safety data sheet and Library plan are understood.
